Get out of the way of danger.
Move everyone off to the side of the road so that passing cars won't hit them. Put up your emergency triangle to warn passing cars about the wreck.

Call the police.
If you haven't already called 911 for medical attention, decide whether you need to call the police. You can deal with a fender bender yourself, but you need to call the police if anyone is hurt or if there is serious property damage. The non-emergency police number in Dayton, Ohio is (937) 333-COPS (2677).
